At first it was thought that he was seriously hurt, but on Monday we learned he was resting easy. Mr. Jarrard will be confined to his room several days.

## THE NEWS FROM SENECA.

Seneca, October 24.—We wish to remind the theatre going public that on next Friday evening, the 27th instant, there will be given them the rarest opportunity to see a really first class entertainment that has ever been afforded here, when "Human Hearts" will be presented. The very fact that it will be given in Columbia Thursday night, the most popular night of fair week, is sufficient proof of its excellence. Our efficient manager of the opera house, G. C. Benedict, was enabled to secure the company by mere chance, as it were, Friday being an off night with it, as the next presentation will be in Birmingham on Saturday night. We think inasmuch as our people generally have very limited opportunity to see really first-class operas, that they will take advantage of this and see "Human Hearts." The Columbia papers speak in the highest terms of it, the following being a clipping from The State:

"Good plays, like good wine, improve with age. This is certainly true of that marvelously successful melodrama, 'Human Hearts,' which Manager Nankerville offers for the tenth year. The company to be seen in the play this season comprises all of last year's favorites, and wherever a part could be improved upon the change has been made, and it is promised that never before has this beautiful play been so well presented. 'Human Hearts' gives a pure, wholesome lesson that touches the heart-strings in the pathetic scenes and excites the risibilities in the humorous ones. The pathos and comedy are so well blended that the audience is in tears one moment and convulsed with laughter the next. The scenic equipment will be perfect in every detail, so it is said, and the management has done everything possible to secure a first-class performance."

The admission fee to "Human Hearts" will range from 25 cents to \$1. The Wild West Show is also booked for Friday. The concern seems to be well advertised, and will be a tent performance. The small boy is happy over the coming of a show with the Wild West element, and no doubt a number of grown up small boys will be induced by "clash of band and din of drum" to patronize the Wild West Show.

It is said that before many moons wedding bells will again ring in Seneca. The Once-a-Week Club held its last meeting with Mrs. Luke Verner. This progressive club is doing splendid work on the study of German literature.

Preaching in the Methodist church! next Sunday evening at 7:30 o'clock.

Mrs. T. E. Dickson, Miss Inez and Master Ted, are spending the winter in Columbia. Their many friends here regret their temporary absence from Seneca, but wish for them a pleasant stay in the Capital City.

Mrs. Ruskin Anderson's friends regret to know of her indisposition the past week, as also the sickness of her baby boy, Will. They are better now.

J. G. Huff's new residence is going up nicely, and, when finished, will be a most attractive one.

Mr. and Mrs. W. D. Holland are also erecting a new residence in the western part of town. The style is cottage, but is beautifully and conveniently arranged, and will be an ornament to that portion of town.

Rev. C. Wardlaw and family have moved to their cottage home on Townville street.

J. S. Arrington is planning a pretty and convenient home on Townville street, which makes the fourth residence on that block on this street.

Mrs. Clarkson's friends are glad to know that she is better, after a painful attack of neuralgia.

Mrs. H. J. Gignilliat is also numbered among our sick, whose friends are pleased to know that she is better.

Little Tom Burgess is not doing so well as his friends would wish, but his physician thinks that his symptoms are better and that with the cool weather he will improve.

J. A. Wilson will open a barber shop in the Palmetto House.

Cotton has been literally pouring into

town this week, giving a stirring business air to the square.

We understand that the action of the town council a few weeks ago in regard to extending the park fence through the square and thereby cutting off the possibility of using the public reservation as a wagon yard, is being severely criticised. We, of course, expected this, but we hope the council will remember that the strenuous kicks only prove more effectually the very trouble that they (the council) are striving to remedy. Let's have "Equal rights to all and special privileges to none."

The family of B. L. Lowery has returned to Mississippi, including their attractive guests, Misses Ward and Steadman.

Rev. M. R. Kirkpatrick is away in attendance upon Synod and other points.

Dr. and Mrs. D. P. Thompson are being congratulated upon the advent of a fine young son, who arrived here at the home of his grandmother, Mrs. C. K. Livingston, last week.

Our milliners displayed at their opening last week beautiful and stylish lines of millinery which were viewed by large numbers of our town people and friends from the country. Styles and colorings were never prettier, and the grade of millinery here is far in advance of the place, and our friends do not now feel the necessity of patronizing larger towns for this line of dress.

We are pleased to note the arrival of an estimable citizen of Spartanburg county, who comes to cast his lot with us, Cuttino Smith, who is with John L. McWhorter for the season.

Miss May Cherry is on an extended visit to friends in Atlanta and Birmingham.

Rev. C. Wardlaw preached a stirring sermon last Sabbath at the Baptist church, using as a subject for the discourse the misuse of intoxicating drinks. We wished that the audience had been many times over its size, as the season and time for such a sermon were most opportune.

## Fight Starts in Abbeville.

The McCormick Messenger says: A petition, asking Supervisor Nickels to order an election on the question of "Dispensary" or "No Dispensary" in Abbeville county, was circulated in McCormick last Monday, and all to whom it was presented signed it, with the exception of four or five who declined for various reasons. Similar petitions will be gotten up at other places, and if the temperance sentiment is as strong throughout the county as at this precinct an election will be ordered, and we believe the dispensary will be voted out in Abbeville county.

## Disastrous Wind Sweeps Great Lakes.

Chicago, October 20.—The storm which last night and to-day swept over Northern Lake Michigan, Lake Huron and Lake Erie, was one of the most severe in recent years. As far as returns are obtainable to-night 10 vessels have been completely wrecked and 12 to 15 others more or less severely damaged. Twelve lives are known to have been lost, and as the gale on Southern Lake Huron and Lake Erie is still blowing fiercely to-night it is feared that other losses, both of life and property, will be reported.

## Lynching in Kentucky.

London, Ky., October 23.—Virgil Bowers, a negro, was taken out of the county jail here by a mob one night last week and hanged to a tree on the road leading to Barbourville. Bowers shot and killed George Ferris, a prominent and wealthy Knox county lumber dealer, on the night of August 26. The murderer was tried by a Laurel county jury early last week, but the jury disagreed. A second trial by a jury brought from Rock Castle rendered a verdict for a life sentence, after ten jurors had voted for hanging.

## APPEAL FROM HARVIE JORDAN.

Makes Call on Farmers Not to Give an Inch Until Fight Has Been Won.

Atlanta, October 21.—A considerable part of the new crop found its way into the markets so long as prices remained above 10 cents, but since the drop below 10 cents per pound, nearly three weeks ago, the producers throughout the entire cotton belt have called a halt and we now find the spot situation absolutely tied up. The port receipts have been heavy during that time, but this has been due to the hurrying forward of shipments that were purchased prior to the recent depression. Very little cotton is now being offered for sale anywhere, and what is being sold is cotton that is largely in the hands of negro tenants who pay but little attention to the price or the course of the market. Merchants, bankers, guano dealers and others have joined with the planters in resisting a market which at the present time is too low and which has been depressed by manipulation in speculation.

There can be but one method for advancing the spot market, and that is for the producers to stand firm and refuse to part with their cotton until prices do reach satisfactory figures. The Southern Cotton Association, through its general executive committee, in session at Asheville, N. C., September 6, after a full and thorough investigation of the situation from every standpoint, decided that 11 cents per pound was a reasonable minimum price for this crop.

This price can be secured by the farmers if they will stand firmly for it. The market for the next two months will be regulated according to the extent of the cotton that is rushed upon the buyers by the producers. It is now being urged from many sections that the people who are able to do so get together in each county and raise funds sufficient to buy in all the cotton that is forced to sale and store it for higher prices. This is already being done in some counties, and if it should become general it would prove an important factor in advancing the prices.

We face another crisis, and the farmers must meet the emergency that confronts them. Dry goods are advancing in price, while the price of the raw material is falling. Mills have sold ahead from six to ten months, and they have no surplus to fall back on, and must have the staple. The raw cotton is in the hands of the producers, and all they have to do to advance prices is to sit steady in the boat for a short time.

Exporters are already getting uneasy.

Spinners are beginning to figure on the present action of the planters, and will soon force the hands of the buyers for deliveries of the raw material. A general tie-up cannot last long without forcing prices upward. The crop in many States is almost gathered. It is all open. Many gins are shutting down or running on half time. Why should the producers allow a few speculators who are bearing the market to frighten them into submission?

Victory is already in sight. The Farmers' Union and all other farmers' organizations are agreed on the 11 cent's minimum. Stand firm yet awhile longer, and you will get it. Pay no attention to the big crop estimates. Pay no attention to any advice to sell. Store your cotton and keep it dry. If you need money, your local banks will advance you eight cents a pound on your cotton. Stand firm and don't give an inch until the fight is won.

Yours truly,  
Harvie Jordan, President.

## The Eclipse of the Yellow Dog.

With the yellow fever in the West, the yellow journals in the North, the yellow peril in the East, and the yellow metal of all sections in the pockets of gratters, the yellow dog of South Carolina has lapsed into innocuous desuetude.—Pee Dee Advocate.

## Ben Bennett in Trouble Again.

Governor Heyward has made requisition on the Governor of Georgia for the extradition of Ben Bennett, who is an escapee from Hampton county and a prisoner of note. Bennett was sent to prison for life in 1895 for the murder of John Lightsey. Governor Ellerbe was asked to pardon the convict and Governor McSweeney was sent nine petitions. Burrell Thomas, also a convict, testified that he and not Bennett had struck the fatal blow. A letter from Bennett to Governor McSweeney under date of October 6, 1891, said if pardoned he would take his family from the State never to return if this was desired, and an agreement was made. The public is familiar with his course since he was pardoned. He will now have to serve five years for killing his wife at Hampton, and then go back on his first sentence.
